

Executive Meeting of Mayor & Council September 1, 2005

PRESENT: Mayor DeIorio; Councilmembers Badillo, Harms, Murphy (in at 8:25 p.m.), Zeglarski and Rubilla; Borough Attorney Bill Lane; Finance Officer Greg Mayers; and Borough Engineer Ed Dec

ABSENT: Councilman Matarante (vacation)

Mayor DeIorio called the meeting to order at 7:30 p.m. and said it is being held in accordance with the Open Public Meetings Act and adequate notice of this meeting has been provided as required by law.

All contracts awarded by Mayor and Council must comply with the affirmative action requirements of P.L. 1975, C172. (NJAC 17:27).

As required by the Fire Prevention Code, he indicated the fire exits and procedure to be followed in case fire.

Borough Clerk Arlene Triano read a short prayer followed by the Pledge of Allegiance.

Mayor DeIorio encouraged residents of the Borough to assist Hurricane Katrina victims and provided information regarding donations. He announced the Roselle Park will have our annual September 11th Memorial Service in Michael Mauri Park and said he will be contacting all community organizations, not only in recognition of those who fell victim to the tragic events of September 11th, but also to recognize Patriot's Day.

COMMUNICATIONS & PETITIONS

Invitation from the Union County Board of Chosen Freeholders to attend the Union County POW/MIA Remembrance Day Ceremony on September 16th in front of the Courthouse in Elizabeth. (Received and filed).

Resolution adopted by the Township of Clark calling upon the Governor and State Legislature to provide a stable, long-term source of funding exclusive of the imposition of any additional gasoline taxes to support the renewal of the New Jersey Transportation Trust Fund and increase the amount dedicated to local aid. (Received and filed).

Notice of Ruling and Public Hearings for Basic Generation Service Charges procured by Public Service Electric and Gas Customers. (Received and filed).

Request from Karen Intile for permission to allow parking at the Gazebo Parking Lot on Saturday, October 1st, during a Community Center sponsored trip to Chester, NJ. This has the approval of the Police Department. (Referred to Council).

Councilman Badillo moved to grant permission to allow the Community Center to park at the Gazebo Parking Lot on Saturday, October 1st, during a sponsored trip to Chester, NJ; seconded by Councilman Rubilla and adopted.

Request from the RPHS Marching Band for permission for “No Parking” signs to be placed on West Webster Avenue from Laurel to Larch and also for the use of the DPW lot, pending Police Department approval. (Referred to Council).

Councilman Rubilla moved to grant the request from the RPHS Marching Band for permission for “No Parking” signs to be placed on West Webster Avenue from Laurel to Larch and also for the use of the DPW lot, pending Police Department approval; seconded by Councilman Harms and adopted.

Received the following requests from residents for block parties:

- . 400 block of Bender Avenue
Saturday, September 3rd from 12:00 Noon until 10:00 p.m.

- . East Clay Avenue from Walnut Street to Cherry Street
Saturday, September 17th from 11:30 a.m. until 10:00 p.m.,
with a rain date of September 18th from 11:30 a.m. until 10:00 p.m.

- . 500 block of Sherman Avenue
Saturday, September 17th

- . 400 block of Woodland Avenue
Saturday, September 17th from 10:00 a.m. until 10:00 p.m.
with a rain date of September 18th

Councilman Harms moved to grant permission to the residents for block parties on the 400 block of Bender Avenue; East Clay Avenue from Walnut Street to Cherry Street; the 500 block of Sherman Avenue; and the 400 block of Woodland Avenue; seconded by Councilman Badillo and adopted.

Letter from Roselle Park Democratic Committee requesting a permit to use Acker Park for a BBQ on September 24th and a permit to host a registration drive and action sports exhibition on October 8th (Referred to Council).

Councilman Harms moved to grant a permit to the Roselle Park Democratic Committee to use Acker Park for a BBQ on September 21st and a permit to host a registration drive and action sports exhibition on October 8th; seconded by Councilman Rubilla and adopted.

Councilman Badillo moved that Mayor and Council sponsor a banner for Roselle Park Pop Warner; seconded by Councilman Harms and adopted. Councilmembers agreed to donate \$200.00 from the Sunshine Fund.

REPORT & RECOMMENDATIONS OF MAYOR

Mayor DeIorio said he had 2 personnel matters for closed session; one regarding the Police Chief, who has been noticed, and the other about the Purchasing Clerk's position.

Mayor DeIorio encouraged the public to attend the Memorial Service on Sunday, September 11th.

REPORT OF DEPARTMENTS

Police Department

Received report from Police Chief Warren Wielgus. (See app. pg. #).

Chief Wieglus said he had no objection to the request from the Democratic Committee. He said he ran his first State Chiefs Meeting, as President, and they raised \$1,000.00 for hurricane victims.

Councilman Zeglarski said he read the Chief's report and he did not see anything about the 2 incidents in Roselle Park that involved the Bomb Squad. He said he was only aware of the incident at the train station. He said he believed it was reported on in the newspaper and said the Police Department did a great job of notifying him and he appreciated that because it's good to have Council notified so that they know how to respond and can give assurances to our residents. He said the other incident he still does not have any information on and hoped that Chief Wielgus could provide him with a report on something that happened the day after the fireworks. When Chief Wielgus said he would be glad to send him a report, Councilman Zeglarski asked if the Chief could tell him what happened. Chief Wielgus said he was not there, but to his knowledge the fireworks company had an oversight and left a box with some unexploded fireworks inside. He said his Department's protocol is that, if they are unaware of what it is, to contact the Bomb Squad and have them remove it. Councilman Zeglarski asked if anyone else knew about this incident. Mayor DeIorio said he knew about it, and when the incident occurred the Chief was contacted by one of his Officers. He said he called the fireworks company directly and it was explained, and he had it in writing as part of the police record for anyone wishing to request it. Councilman Zeglarski said he wanted to know why he didn't get one, and the Mayor said he did not know, but the bottom line was that the fireworks company had left what is called a cake and Roman candles were left in it about the size of a finger. He said they are candles you could probably purchase south of the border and were not active and did not blow. He said as part of protocol the Police Department immediately called the Bomb Squad, they responded, nothing happened and they removed the cake. He said there were no other shells and no danger to the public. He said the Police Department could have called the fireworks company directly, however as a precautionary measure they immediately contacted the Bomb Squad. Councilman Zeglarski said the County showed up and probably generated a

report and asked if Chief Wielgus had a copy of it. Chief Wielgus said he did not, but if the Councilman wanted he could possibly obtain it. Councilman Zeglarski thanked him but said he would get it himself. Councilman Zeglarski asked Chief Wielgus to stay for the closed session meeting, because he had a question regarding his comments at the last meeting. The Mayor asked if it was a closed session matter. Councilman Zeglarski said he did not know, but it seems it might be personnel and he wanted to be careful, but if it wasn't he would make it public.

Councilman Badillo said he wanted to compliment the Chief, Captain, local Police, Fire, First Aid Squad and the County for how they handled the bomb scare at the train station. He said they came in and cordoned off the whole area and did a great job in ascertaining what it was and destroying the item which turned out to be nothing, but as the Chief said we don't know that. He thanked all those agencies including the County for how quickly they came and took care of that situation.

DPW

Received report from DPW Superintendent Frank Wirzbicki. (See app. pg. #

Mr. Wirzbicki reported that, sometime after Labor Day, Elite Tree Service will be coming in to do some of the tree removals. He said he has been trying to save the Borough money by doing some of the removals and trims himself. He said there were a couple of issues at 622 Galloping Hill Road and they recently went out there with the sewer camera and tried to solve the problem, but it did not work because of the debris in that large stretch of storm line. He said the camera he has is not built to go through that type of storm line. He said they will have to dig it and he or Ed will be out there to make sure everything is all right and it is not a Borough problem. He said there was another issue on Colfax Avenue and they went out and used the camera on that line to make sure all the lines were connected, and everything there was fine. He said on Pinewood and Oak Street there was another problem, and after using the camera on that line they found roots in the airline and took care of that and re-cameraed it. He said they showed the resident and after they did all that she had a sewer problem, but it was not a Borough problem. He said he received calls regarding an issue with a piece of tree stump at 338 E. Colfax Avenue which he was able to chisel out and get rid of.

Councilman Badillo thanked Frank for getting the trees down over by Sherman School, and said he would discuss 622 Galloping Hill Road with the Borough Engineer.

Borough Engineer

Borough Engineer Ed Dec said he had no report on any new construction at this point. He said bids were received for Markthaler Place and Hemlock Street, and were very close to what he had estimated. Mr. Dec said he gave the Borough Clerk the breakdown which will be distributed tomorrow. He said Councilman Harms had a question about the Clay Avenue project and said he did not want to close that right away, because they received a letter from the State inquiring why line stripping was not done all

the way through. Mr. Dec said there are still funds that have been allocated for the project, and he believed that was something that had to be addressed and taken care of. Councilman Harms said he received a letter from Mr. Mayers which stated that the Borough Engineer had signed off on it. He said he was having a little difficulty understanding if the Borough Engineer is signing off and then the State comes in after, and asked if that is what happened. Mr. Dec said that was exactly what happened. Councilman Harms said he was glad that he brought it up to stop payment based on what he was reading from the State. He said but if this is money the Borough is receiving from the DOT, before the Borough makes the final payment, he felt they should wait for a report from the DOT. Councilman Harms said it still did not answer his question about the sinkage out there. He asked if it was caused by the work done by the contractor, Matina and Son, Inc., or from the sewer line that was put into those new houses. He said he is having a difficult problem with the patches, and if nothing is done, it is going to cost taxpayers dollars to keep digging this patch up. He said if the Borough finds it is the sewer people who put the sewer lines in at those new houses, the Borough has to get them back somehow, and Mr. Lane will need to give them some guidance on that. He said if they have to have a patch he wants one that does not sink. Borough Attorney Bill Lane asked if there was a performance bond and Mr. Dec said there was one for Martina and Son, but not for the 3 new houses. Councilman Harms said, since those houses have gone up, they have had the same sinkage in the same hole. Mr. Lane asked Mr. Dec if he could determine who is responsible and Mr. Dec said he could tell if by the location of where the pressure is occurring. Mr. Lane said the Borough has recourse against Matina because they have a performance bond, but if there are no performance bonds from the developers for the houses in question then you would have to demonstrate negligence and the Borough can then pursue actions in the court. Mr. Lane asked Mr. Dec to get him the name of the original sewer contractor and said he will communicate with both of them in writing. He said he would get to the bottom of this with Mr. Dec's assistance.

INTERRUPT THE REGULAR ORDER OF BUSINESS

Councilman Badillo moved, at 8:00 p.m., to interrupt the regular order of business for a Special Meeting; seconded by Councilman Harms and adopted.

RESUME THE REGULAR ORDER OF BUSINESS

Councilman Badillo, moved, at 8:05 p.m., to resume the regular order of business; seconded by Councilman Harms and adopted.

REPORTS OF DEPARTMENT – (Con't)

Councilman Harms said he wanted to make sure the Borough Engineer followed up on the situation at W. Clay Avenue to find out who is at fault. Mayor DeIorio said this is an issue he is very passionate on. He said he does not know who to point a finger at whether it is the contractor or the sewer lines. Councilman Harms asked if the contractor who did the paving also put the storm sewer line in. Mr. Dec said he put it across the road and along the curb. Councilman Harms said he does not know who's at

fault and maybe it is just a coincidence that it is just in front of this particular home that it has sunk several times before. He said we can call the Superintendent of the DPW and ask him to go back to his records to find out how many times he was called on the sinkage and said they had to put barrels out there to protect the residents and motorists from going into the pothole. Mr. Dec said he agreed with Councilman Harms and the Mayor, saying there have been problems on Clay. He said utility companies have come in and that was one of the biggest problems when they were trying to finish the project. He said by practice they usually go and fix the problem, backfill and then have a subcontractor come in at a later date to do a final repair. Mr. Dec said they had to go back twice to first fix some sinking problems that were done by the water company, resolve that, and then go back and re-mill the roadway in certain sections because the pavement was put down incorrectly. He said there are noticeable differences in the pavement surfaces and he feels they are now starting to fade and the reason they are so apparent now is because the asphalt is newer than the other. Mr. Dec said the settlement of the trenches is something to be concerned about and, as Councilman Harms stated, there would be records from the Department of Public Works because they need road opening permits. Borough Attorney Bill Lane asked if there was more than one sinkhole. Councilman Harms said there is one sinkhole, and the Mayor is speaking about the unevenness of the roadway itself. He said when you pave something you use a box to pave it so it goes down smooth all the way through. He said when you go back and saw cut an area out, there is no way to have it even all the way around. Mr. Lane asked if the sinkhole appeared prior to the most recent contractor coming in. Mr. Dec said maybe Councilman Harms could be out there tomorrow and they could identify the location. He said they could tell exactly if it's been done by most recent contractor or by a person previously there. Mr. Lane said once that is done he will be happy to assist him.

Councilman Harms asked about Hemlock and Markthaler, saying he understood the bids came in and asked how long before they award it. Mr. Dec said they can be awarded by the next Council Meeting. He said as far as money, Greg would first have to review what is in the account. Councilman Harms said there is a public meeting on September 14th for Municipal Services regarding leaf pickup. He said he has requested all Councilmembers to be present and asked if the resolution could be done at that time. Mayor DeForio said September 15th is the date of the regular meeting of Mayor and Council and it can be done then. Mr. Dec said they can have a pre-construction meeting prior to that and have them complete the project this Fall. Borough Engineer Ed Dec reported that the traffic light at the corner of Chestnut Street and E. Grant Avenue should be in operation in about a week. Councilman Murphy said two letters were brought to his attention from a First Ward resident regarding a piece of property on Ragland Drive. He said the resident called him and he hoped that Mr. Dec could sit down with Mr. Risso and reply back to the Mayor and himself so they could respond back to the resident with regard to the allegations that are being made regarding that piece of property. Mr. Dec said he wanted to bring up the subject of the easement on Galloping Hill Road. He said he met with the resident and he did come in with some evidence that an easement may exist on his property. Mr. Dec said he thinks it does because the adjoining neighbor has a deed which references that easement. He said the resident said he would have no objection if the DPW came in and tried to expose the pipe to see if it was the town's

responsibility, and if it wasn't to just back fill it and leave it alone. Mr. Dec said this would be out of standard practice of what the Borough normally does, but it is not very deep and may be something we can help the resident with. Councilman Badillo said he appreciates that and noted that the resident has sent copies of his letter to his insurance company to put them and everyone else on notice that this problem exists there. Mayor DeIorio said if Council had no objections, he would instruct them to go ahead. Mr. Lane advised them to get it in writing so the Borough is not held responsible.

Borough Attorney

Borough Attorney Bill Lane said he had two closed session items to discuss. He said one involves the Borough's potential claim against Blackstone, and the other is the Youth Center lease with the Board of Education. Concerning the vacation of a portion of Woodside Avenue, Mr. Lane said he wrote a letter to both affected property owners and he heard only one response and will assume there is no objection by the other. He said he would prepare the ordinance and have it available for the next meeting. Mayor DeIorio said if any member of Council has any questions to call the Borough Attorney.

Borough Clerk

Received report from Borough Clerk Arlene. (See app. pg. #).

Finance Officer

Received report from Finance Officer Greg Mayers. (See app. pg. #).

Administrative Assistant

Received report from Administrative Assistant Karen Intile. (See app. pg. #).

REPORT OF STANDING COMMITTEES

Councilman Murphy said a lot of people are asking him about what was brought up at the last several Council meetings by a former Councilmember about the 30, 30, 30 and when he explains they understand about the first thirty but not the second and third. He said people are under the impression that Mayor and Council get medical benefits and pensions. He said, whether or not they like it, the State requires that 10% of their pay go to the pension plan and, as he understands it, you do not become vested until you complete 10 years. He said at end of his term, whatever money is taken from his paycheck comes back to him, so its just as if he had a savings account. He said that is the extent of the pension plan and there is no 30% to deduct. Councilman Murphy said the next thing was medical benefits, and stated that no one on this Governing Body gets medical benefits. He said he hoped that cleared the air.

Councilman Murphy referred to many ways that he could spend \$15,000 to benefit the Borough. He said he loved fireworks and could remember looking foreword

to them as a child, but today he is an adult and has to look at things differently. He said one of the things he has been asked to do as an elected official is to be custodian of taxpayers money, and although he likes fireworks, he cannot see \$15,000, \$10,000 or ever \$4,000 go up in smoke for 20 minutes. He said if someone in the corporate world wants to make a donation, he would be all in favor of that. Councilman Murphy said the sale of assets account money should not be used for operating expenses. Councilman Murphy asked residents to support the Keystone Club members, who are collecting donations for hurricane Katrina victims.

Councilman Harms moved that the Borough Clerk be authorized to advertise for a part-time position for the Crisis Center; seconded by Councilman Badillo and adopted.

Councilman Harms reminded residents that at the September 14th Municipal Services Committee meeting they will discuss how to handle the leaf program. He said he hoped to have the members of the public there to give input and stated it will be held in Council Chambers.

Councilman Rubilla said he wanted to comment about those that had approached the podium about the meeting last week. He said he wanted to stay away from it, but Mrs. Kinloch brought his name into it. He said she was absolutely right that in some instances the public had gone over the limit, and there is a rule of 5 minutes when you speak alone and 10 minutes when you dialog with Council. He said he read those regulations for a reason, so they could keep a calm orderly meeting. He said what they didn't anticipate was having all of those people, and he was not going to apologize for them mostly all supporting Councilman Badillo. He recommended having a 5 minute timer and, when the bell goes off, the person at the podium will know that their time is up so that there is no perception of favoritism and he would like to abide by that. He said he would not criticize the Mayor's conduct, because some people were sobbing and some were injured by the remarks that were thrown at Councilman Badillo in an unfortunate newspaper article. He said he really does not know what it is like to sit there with 135 people and have the responsibility of presiding. He said Gary Bundy had one of the most intensive, heart tugging speeches that he has heard in his life. He said that guy is respected on both sides of the aisle, and he went over 10 minutes and broke the law but he does not excuse it or apologize for it. He said that was a sensitive meeting with a lot of sensitive things going on. Councilman Rubilla said Ricky was not convicted or indited; it was an administrative breach in his workplace, and he supposed that was why everybody came out to support him. He said in reverse the Mayor has been rather cordial to those that have been his biggest detractors and have given them 15 to 20 minutes and felt he has done a fine job in officiating a meeting, and did not think he owed anyone an apology.

Councilman Zeglarski said when those rules were proposed he voted against them, because he thought they could be abused by the Chairman who is the Mayor, and he felt they were abused. He said that was a clear example of an abuse and said he was not talking about time limits, saying the language in the rules state that no person shall

act unbecoming or whatever, saying he did not remember the exact words. He said to make that determination is very difficult. He said he did not have any problem with time limits, and did not have any problem with denying somebody the right to speak if they are disrupting a meeting, but this Council decided that personal attacks and things like that were not going to be tolerated. He said he thought what he saw were personal attacks that had no place in this room and the fact that he cannot enforce that rule is a fact of the organizations structure. He said the Mayor can enforce it, and if the Council votes to enforce it then it can be enforced, but he cannot enforce it alone and that is what he has a problem with. He said Council created the rule and now they are selectively enforcing it and said he would not comment any further on this topic. Councilman Rubilla said that is why he trusts the Mayor, because he has 13 years of presiding, and Councilman Zeglarski said he doesn't. Councilman Zeglarski said he has been on other boards where people conduct themselves professionally. He said at the meeting the Police Chief notified members of his family that he was the officer on duty, although he was not in uniform, and his family thought there was no officer on duty that evening even though there were two plain clothes officers there but they didn't know about until they got into the parking lot. He said that meeting was a very poor example for Roselle Park to see and has created a lot of distrust among not only this member of Council, but a lot of residents as well.

Mayor DeIorio said since the discussion is revolving around his ability to conduct a meeting, and the ability for the public to speak, his recollection to those rules of conduct also surrounded the time limits. He said he thought that Councilman Zeglarski wanted those time limits to increase not to be kept to a 5 and 10 minute timeframe. He said he selectively avoided telling the complete truth regarding his objection to the adoption of those rules of conduct. He said he did not feel it was appropriate to call the police in a Gestapo fashion to intimidate the public. He said it was silly for the Councilman to think the residents of this Borough can't conduct themselves in a fashion where they can speak even when Council does not like what they have to say. Councilman Zeglarski said his Gestapo remark was out of line. He said he sees selected enforcement and gets concerned, and mentioned that the Mayor has 15 years as an elected official which put him in the pension system. The Mayor asked him what his point was.

Councilman Badillo said he attended the library lawn party and thanked the Mayor who was there to DJ. He said there were a few children who read over 150 books, and he wanted to have them honored at one of the Council meetings. Councilman Badillo highlighted the activities from Administrative Assistant Karen Intile's report. He thanked Scott Fuller for his time as a volunteer firefighter and wished good luck to the other gentlemen that are moving up in the ranks. He said he had one closed session matter having to do with the Borough's website. He said at the last Council meeting he submitted a letter to both newspapers thanking everyone for their support and said it meant a lot to him and his family. He said if you volunteer and give your heart and soul to this town, people do appreciate what you do. He said Mr. Zeglarski made some comments about pays and raises and said they could go on and debate this for months.

He said if the comments he made at the meeting caused him or his family any harm that was not his intent, and he apologized.

Councilman Zeglarski said he believed the issue was misinformation. He said the Borough Attorney blew his thunder, and he was a little disappointed because he wanted to bring up the paper street again which he has been working on for about a year. He said he was glad to see it was being taken care of. He wished everyone a safe holiday weekend.

PUBLIC COMMENT

Councilman Harms moved, at 9:40 p.m., to open the public comment portion of the meeting; seconded by Councilman Matarante and adopted.

Greg Kinloch, 336 Sheridan Avenue, said two weeks ago Mayor and Council was talking about parking in the empty lot on Jerome Street. He said when he was on Council that property was designated for an Eco Forest. Mayor DeIorio said he was glad he brought that subject up, because Council needed to research the matter. Mr. Kinloch said he was so proud when the town did Acker Park because it was such a community effort, but unfortunately it has been a problem since the day it opened. He said an ordinance was passed stating it was for residents only, and it was brought to Council's attention that it was an illegal ordinance. He said, if that is so, it is still posted on the sign at Acker and should be removed. He agreed with Councilman Murphy that there are a lot of things that could be done with \$15,000.00 and said he wished he was going to be on Council next year because maybe he would vote against the fireworks. He stated that was not the issue, because they already had fireworks and he was just saying there was a different way to pay for it.

Jacob Magiera, 612 Sherdian Avenue, asked for half the time Councilman Murphy used, saying he talked for almost 30 minutes on what he would do for the Borough if he had \$15,000.00. He said Councilman Badillo said that members of Council do not get health benefits. Mr. Magiera said he knew that, and noted he did not mention health benefits; he said to take a 30 percent cut in pay and 30 percent cut in pensions when Councilmembers go on their pension. He said he is talking about people taking a 30 percent cut in pay, a 30 percent cut in pension, and a 30 percent co-pay towards benefits. He said \$15,000.00 is a fraction of a 12 million dollar budget which could have been taken out of the \$700,000.00 sewer money with no problem. Mr. Magiera read an article about the Prosecutor's Office who said they would not investigate Councilman's trash enforcement efforts, saying it would be inappropriate for the office to investigate the matter. He said the Borough has saved a lot of tax dollars because of recycling cardboard. In reference to the SID Program, he said he had addressed Council and stated it was costing the Borough \$25,000.00 a year for picking up downtown garbage, and he was surprised that Councilman Murphy did not pick up on it. He said Councilman Murphy did not even know how many decorative street lamps the Borough had. When Mr. Magiera asked if there was an update on the Spagnolli issue. Borough Attorney Bill Lane said the case was still pending and he could not comment. Mr.

Magiera asked if anyone had a question before he left, because he detests when he leaves the podium and someone comments and he has to wait until the next meeting to respond. Councilman Rubilla said, as he recalled, Council was getting a lot of complaints about Mr. Magiera going through peoples garbage which is a violation of their Constitutional Right, and the Prosecutor sought not to go after it. He asked if he brought the other letter from the Prosecutor's Office, when he was involved in the Firehouse incident on Chestnut Street, to let the public know the findings of the Prosecutor in that case. Mr. Magiera said there was no letter sent to the Prosecutor. When Councilman Zeglarski asked Mr. Magiera if he felt it was possibly part of a pattern of intimation, Mr. Magiera felt he was being intimated right now. Councilman Rubilla said this is a perfect example of going over the limit. Mayor DeIorio asked that they continue their conversation at their own leisure.

There being no one else wishing to speak, Councilman Badillo moved to close the public comment portion of the meeting; seconded by Councilman Rubilla and adopted.

Mayor DeIorio read the Closed Session Resolution and said Council would be discussing the following matters:

- . Contractual and Union issues surrounding the vacancy of the Purchasing Agent
- . Potential Litigation matter regarding Website
- . Personnel Matter - Chief Wielgus' comments from last meeting
- . Potential Litigation – Blackstone Contract
- . Contract Negotiations - Lease between the Board of Education and Mayor & Council regarding the Youth Center
- . Personnel Matter - Police Chief's attendance at a Conference

INTERRUPT THE REGULAR ORDER OF BUSINESS

Councilman Harms moved, at 10:00 p.m., to interrupt the regular order of business for a closed session meeting; seconded by Councilman Badillo and adopted.

RESUME THE REGULAR ORDER OF BUSINESS

Councilman Badillo moved, at 10:50 p.m., to resume the regular order of business; seconded by Councilman Harms and adopted.

Mayor DeIorio said during closed session Council discussed matters pertaining to:

- . Contractual and Union issues surrounding the vacancy of the Purchasing Agent

- . Potential Litigation matter regarding Website
- . Personnel Matter - Chief Wielgus' comments from last meeting
- . Potential Litigation – Blackstone Contract
- . Contract Negotiations - Lease between the Board of Education and Mayor & Council regarding the Youth Center
- . Personnel Matter - Police Chief's attendance at a Conference

There being no further business to come before the meeting, at 10:55 p.m., Councilman Badillo moved to adjourn; seconded by Councilman Murphy and adopted.

Attest:

Borough Clerk
